

**Sage is a 4-piece rock band. The band uniquely blends a prowess for dirty drum and bass driven funk of the 1970's with powerful guitar glam rock of the 1980's, yet modernizes it all with passionate singing, catchy songwriting and the pulsing, flowing beats of today. The energy created by these four musicians has prompted the media to proclaim: "This band is not to be missed!"**

**The band went down to the crossroads in mid-2005, and came up with their new album *Up From Below*. With the idea of creating something fresh sounding and different than what anyone has heard live, the band utilized a horn section on 2 tracks, synthesizers, percussion, an electronic drum set. Meticulously mixed and produced over a 3 month period, *Sage: Up From Below* is a rich illustration of what the band can accomplish in a recording studio, and a full realization of Sage's musical vision.**

**Chris Bizarro:** Lead Guitar, Backing Vocals

**Dave "Tree" Ryden:** Bass Guitar, Piano

**Tim Nayfield:** Lead Vocals, Guitar, Acoustic Guitar

**Gabe Rohmann:** Lead Vocals, Drums, Percussion, Electronic Drums & Effects, Synthesizer
